

Foundations in SAP ERP  
Financial Accounting

# Foundations in SAP ERP Financial Accounting

Variant: [TERP21](#)  
Delivery: E-Learning  
Duration: 300 Min

TERP21 300 Min

e-learning

## Goals

- Explain the basic concepts of Financial Accounting master data and business processes
- Describe the Purchase-to-Pay business process and how it integrates with the General Ledger and Accounts Payable.
- Describe the integration between the Order to Cash business process and Financial Accounting

## Audience

- Customers and consultants who are new to SAP ERP Financial Accounting
- IT professionals who will be supporting the business processes used by their organizations.
- Project team members, who need an understanding of the key aspects of the SAP Financial Accounting business processes

## Prerequisites

### Essential

- Conceptual or practical knowledge of how companies manage their financials
- TERP01 Intro to SAP ERP and SAP NetWeaver

### Recommended

- [SAP129](#) SAP Navigation

## Course based on software release

- SAP ERP 6.0, EhP5

## Content

- Tasks in Financial Accounting
- Organizational Levels in Financial Accounting
- General Ledger Accounting
- Accounts Payable processes
- Accounts Receivable processes
- Asset Accounting processes

## Note

- [TERP21](#) provides a simple overview of business processes in Financial Accounting. It is not an appropriate substitute for [AC010](#) or for participants who are interested in a deeper understanding of SAP's Financial Accounting application. [TERP21](#) is best suited to those who need to have a high-level understanding of SAP Financials but who are unlikely to continue with additional Financial Accounting courses.
